PROFESSIONAL SUMMARY

Creative and detail-oriented Computer Science undergraduate with a strong foundation in UI/UX design, front-end development, and back-end programming. Experienced in designing intuitive and engaging user interfaces for web and mobile applications, with proficiency in tools such as Figma, Photoshop, etc. Skilled in full-stack development using modern frameworks and languages, with practical experience in server-side technologies and version control systems like Git. A proactive team player with a proven track record of leading and contributing to student-led tech events, workshops, and design initiatives. Passionate about building user-centred digital solutions and continually expanding technical and design expertise through academic projects and freelancing.

SKILLS

- UI/UX design - Figma, Axure
- Front-end development (JavaScript, React, Next.js, Flutter, HTML, CSS)
- Back-end development (Java, SpringBoot, Express.js, Node.js, PHP)
- Graphic designing, illustration & manipulating - Adobe Photoshop, Illustrator
- Video editing, 3D & FX Animation - Adobe Premiere Pro, After Effects
